Bug ID	2		
Originator	Reyhaneh	Email:	Phone:
Submit Date	30/8/2021		
Summary	[BUG][New article][FUNC]: After entering the Long text on the creation article fields , the UI of the article changed wrongly.		
Severity	major		
Product	website		
Component	Not applicable		
Version	-		
Platform	PC		
OS	Windows		
Browser	[Chrome]		
URL	https://qa-task.backbasecloud.com/		

Description

Pre-conditions: User is logged in

Steps:

1. Click on button [New article]
2. Enter the long text on fields on the New article page.

Expected result:

- The creation article should add successfully in the Global feed/your feed tab.
- The added fields should display on the proper design.
- If the user enters long text (ex : more than normal characters), the site should display the current error message.

Actual Result :

- After entering the Long text on the creation article fields ,the site did not display any error message and the UI of the article changed wrongly as well.
- The creation article did not add successfully in the your feed tab.
